TECHNICAL SPECIFICATIONS :

- Brand : Quiware
- Model : QBS900
- Machine Dimensions* : 820 x 400 x 300
- Conveyor Size* : 820 x 150
- Temperature Range : 0-400°C
- Sealing Width: 12mm
- Power Consumption(W) : 50
- Sealing Speed : 0-12m/min
- Machine Type : Tabletop
- Plug : Malaysia standard 3pin

*(WxDxH) in mm

KEY FEATURES

- Typically seals faster than the operator can supply bags into the feed.
- Seals thermoplastic materials including Polyethylene (PE), Polypropylene (PP), BoPET (ie. Mylar), and heat-sealable laminations and cellulose (ie. Cellophane)
- Referred to as “workhorses,” these machines run long days with trouble-free operation.
- Consumable parts such as bands and Teflon are easily replaced and installed.
- Versatile configuration options for flat and stand-up pouches.

MACHINE DIMENSIONS :

BENEFITS OF QUIWARE® QBS900

- All-in-one continuous high-speed bag sealing system
- Equipped with Analog temperature controller.
- Makes strong, professional-looking airtight seals like those made by costly high-speed automatic systems
- Seals bags that are standing AND bags that are laying on their side.
- Includes motorized belt conveyor with synchronized speed adjustment
